Welcome to Solidray

- ▶ **Over the years, the use of cryptocurrencies and other blockchain-based technologies has proven the potential to make the world more secure and self-governed.**
- ▶ **Cryptocurrency suffers from complexity for the average user. Managing private keys, public keys, and several other blockchain concepts—it's all vastly out of the reach of the average user.**
- ▶ **Solidray seeks to become a leading ecosystem and a platform focused on creating the best possible secondary market user experience for both seasoned crypto-users and also crypto-beginners.**
- ▶ **We believe that cryptocurrency is decentralized, and every person in the world should be allowed to enjoy every advantage that blockchain technology brings.**
- ▶ **Our belief is to create digital asset education, and trading education, improve the trading experience and cryptocurrency adoption in the world.**
- ▶ **We aim to provide a safe place for users (beginners, average, or experts) to communicate and use cryptocurrencies. This platform is designed to meet most of the needs of the crypto community by developing a global hub where users can create, buy, sell, exchange, discover exclusive digital items and create a system that will supercharge the Blockchain Ecosystem through its strategic utilities and education, with relatively minimal gas cost.**
- ▶ **Solidray is based on a "built from the ground up" approach. Our platform encompasses utilities such as Exchanges (Custodial and non-custodial), NFT Marketplace, Launchpad, Academy etc that will truly be your one-stop solution for all things digital assets.**

Our Mission

- ▶ **We aim to provide services, education and functions that allow you to trade securely, confidently, and freely. We believe that by creating a safe space for the blockchain community, it will be easier for users to accelerate the transition and adoption of cryptocurrency, we can help people globally to:**

- 1** Control their money - ability to access their funds anytime and anywhere
- 2** Safeguard their data - cryptography-secured blockchain makes data tempering highly unlikely
- 3** Protect their identity - no central entity can compromise your identity.

- ▶ **Our ecosystem is feature packed while maintaining a superior and transparent user interface; enabling a simple, comfortable, well-balanced, Hybrid Digital Asset Trading Platform.**
- ▶ **All the Utilities by Solidray creates an experience that bridges the gap between the physical and digital worlds. We put into considerations :**

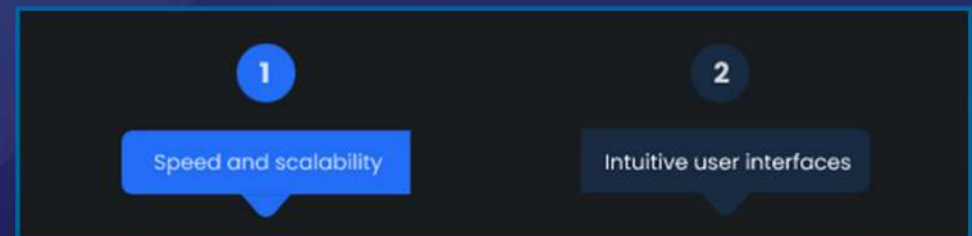

Speed and Scalability:

- ▶ **Speed and Scalability** allows for processing millions of transactions per second and accommodating hundreds of millions of active users and millions of applications. Intuitive User Interface that enable an average user to easily buy, store, and transfer value, as well as naturally use decentralized apps.

Intuitive user interfaces:

- ▶ **Intuitive User Interface** that enable an average user to easily buy, store, and transfer value, as well as naturally use decentralized apps.

- ▶ **We understand the rapid innovation that is happening in the crypto space and the need to bring financial inclusion to everyone around the world.**
- ▶ **While bringing digital assets education to every country in the world, users will need to buy, sell, trade, and share digital assets among themselves with solidray utilities .**

Our Values

- ▶ We come together as a team every day because of a driving force. There are millions of people in the world that do not understand crypto. Our values revolve around educating these people and their communities.
- ▶ Most cryptocurrency projects are developed and founded in developed continents like Asia, Europe, and America. Because of the concentration of crypto projects in these continents, new crypto projects are focusing on providing services and building around these concentrated areas because of the ease of information flow.
- ▶ Only a few projects are interested in educating the world about crypto to increase its adoption while actively working on their projects.
- ▶ We are proud to present to you the **Coinsher Academy**.

SRT

Solidray **Token**

- **The Solidray Token (SRT) will function as the base trading pair for all digital assets offered through out our ecosystem in order to create scarcity and increase the value of the token and a bit market stability.**
- **Solidray's existing ecosystem will offer simple ways of buying the SRT Tokens, and a range of services to spend them on, driving demand and fundamental value for the cryptocurrency.**

BUY

SELL

BUY TAX (3%)

BUY ON PANCAKESWAP

1% from buy transactions will be redistributed to holders as reflections.

1% of every buy transaction is converted into liquidity. This automatically helps to create price stability.

1% of the sales tax will fund the marketing wallet to market Solidray.

SELL TAX (3%)

SELL ON PANCAKESWAP

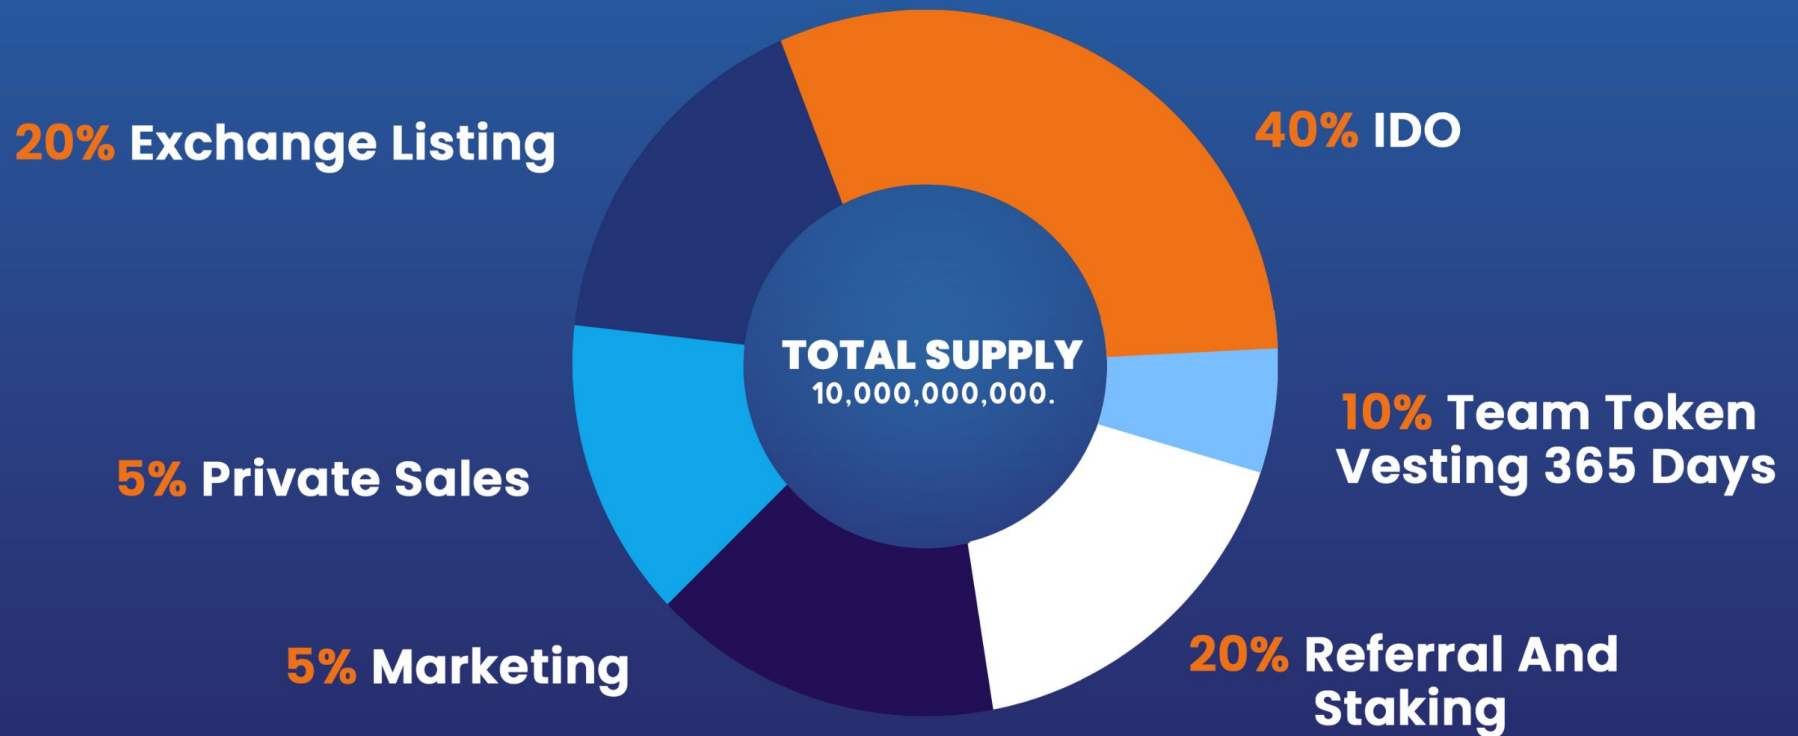

1% from sale transactions will be redistributed to holders as reflections.

1% of every Sell transactions will be converted into liquidity. This automatically helps to create price stability.

1% of the sales tax is going to fund the marketing wallet to market Solidray.

TOKENOMICS

Tokenomics basically refers to the allocation and distribution of tokens. This section of the whitepaper explains how the Solidray Token (SRT) will be distributed.

TOKEN NAME: SOLIDRAY TOKEN – INITIAL TOKEN TYPE: SRT
| Total supply: 10,000,000,000.

SOLIDRAY ECOSYSTEM

The Solidray ecosystem was designed from the start to be inclusive and circular, while remaining flexible in order to adapt to growth. It is a system where value created will be shared with each of its participants, and each participant will have the opportunity to help guide both its value creation and decision.

Our product solutions across five verticals are building up a sustainable ecosystem that serves our mission of creating a safe space for the blockchain community.

Our Products

- This section of the whitepaper explains implicitly our solutions and approaches.
- Our strategy is to leverage secured web3 solutions that are easy to use as the primary tool for driving adoption and user acquisition while building trading and financial services solutions as the major sources of revenue.
- This section of the whitepaper explains implicitly our solutions and approaches.

Coinsher Exchange

- Despite the growing adoption of decentralized exchanges, not much is yet known about their market quality. To shed light on this issue, we compared decentralized blockchain-based venues (DEX) to centralized crypto exchanges (CEX) by assessing two key aspects of market quality:
- Using a novel and comprehensive data set, we find that overall CEX provides better market quality but DEX become competitive for transactions exceeding \$100,000.

We weighed and discussed several relevant advantages and drawbacks of DEX and CEX.

How then can we create a safe space for the blockchain community? It was for this reason that Coinsher Exchange was birthed.

Our Unique Features:

- **Coinsher manages 9 different Swap Transactions.**
- **Coinsher supports Wallet Connect and all supported wallets.**
- **Coinsher can integrate Banks, Payment Gateways, Liquidity Providers and any DeFi, CeFi .**
- **Coinsher supports Advanced Order Book Trading.**
- **Non-custodian Swap.**
- **Custodian Swap.**
- **Semi-custodian Swap.**
- **Full suite of Financial Flow Management tools for Crypto and Fiat Assets for Operations in Admin Panel.**
- **Coinsher User Interface (UI) is developed on Flutter.**
- **100% Self-healing and Microservice Infrastrucutre – The self healing microservice infrastructure actually makes us stand out.**

We will offer staking and swapping, speedy transactions and multi-wallet connections enabling our users enjoy a safe private and seamless trading process. Other features include :

**Offer the ability for the end user to exchange 'Asset A' for 'Asset B'
Partnership with world best company to :**

Offer safe custody over end-user funds with a Custodial Licensed company (Fireblocks)

Provide top-notch KYC and AML Service to meet compliance (Authenteq).

Coinsher Exchange **Registration and Partnerships.**

Article of Incorporation

Registration#: 14127250

CoinsherLLC is registered as a corporation in Denver, Colorado, United States.

Partners

We have partnered with the best service providers to ensure our product meets standards and requirements. They include:

<https://sumsub.com/>

Online verification platform

<https://www.fireblocks.com/>

Digital assets custody and settlement

<https://www.chainalysis.com/>

AML/KYT, crime investigations

Blockchain & crypto education

Coinsher Academy

- **To achieve our mission of creating a safe space for the blockchain ecosystem, Coinsher Academy will be a leading Education Hub for our users at all levels through learning and education fostering mass adoption of Blockchain technology in several sectors of everyday operations and crypto assets.**
- **We will be providing simplified guides to understand crypto, blockchain, trading strategies and personal finance on your journey to financial freedom.**
- **We aim at ensuring that new participants are well educated and improving the education of those in. Lack of knowledge or adequate/accurate knowledge has cost people a lot and has painted some defective images to the space. If people are well educated it will be easier to engage correctly in the space.**
- **We will also provide premium opportunities to work in the Web3 space to our students who have been able to go through our modules. We can be sure they have a great foundation to offer tremendous value to the space.**

Modules

BEGINNERS

- What is the Blockchain Technology
- Use case of Blockchain
- What are Cryptocurrencies
- Digital Assets
- Arbitrage Trading
- Venturing into the Crypto space Opportunities
- How New Traders can make Profits in the Bear Market

INTERMEDIATE

- Basics of Technical Analysis
- Fundamental Analysis-How to do your own research
- Understanding market cycles and structures
- Portfolio management and asset allocation
- Dollar Cost Averaging
- Cyber Security

ADVANCED

- Exploring other aspects; DeFi, Metaverse, NFTs, GameFi, etc.
- Blockchain Architecture
- Blockchain Solutions
- Blockchain Programming and Development

- Basically covering every aspect of Blockchain technology and cryptocurrency to educate and enlighten the world. We also look at keeping you up-to-date with developments and news in the space through our blog post

Methods

1. Media Academy's page, animations, illustrations, Webinars and other digital means for best understanding.
2. In-Person Hosted(In collaboration) in Universities and Institutions Seminars in different regions.

NFT Marketplace

- **An NFT is a digital asset that represents real-world objects like art, music, in-game items, and videos. They are bought and sold online frequently with cryptocurrency and they are generally encoded with the same underlying software as many cryptos.**
- **Solidray's NFT Marketplace will be a peer-to-peer platform, enabling users to trade Non-Fungible Tokens (NFTs). We aim to provide an ecofriendly, yet breathtaking experience on the Marketplace platform by ensuring a highly intuitive user interface.**
- **Our NFT platform is a value-added service that enables users to access the metaverse experiences. The Multivendor Marketplace will create a paradigm shift in the NFT niche market.**

- **It is a platform for trading a variety of digital artworks and collectibles. You will be able to mint real rare NFTs. Here, the most exclusive pieces in the history of mankind can be found, together with collections from other admirers ranging from Arts, Music and Photography. We aim to develop a global hub where users can create, buy, sell, discover exclusive digital items and create a system that will supercharge the Solidray Ecosystem with relatively minimal gas cost.**
- **Additional benefits of this marketplace are that economic principles of supply and demand become automatically integrated into the system, allowing the community to determine the fair price of user-generated assets.**
- **\$SRT will be deployed as a means of payment, rewards, and deposits on the NFT Marketplace platform to increase value of our utility token.**
- **Through a series of art promotional events, airdrops, and rewards systems, The NFT MARKETPLACE will be building up a network of artists, fans and investors in this fantastic new opportunity. Creators will be able to Lock \$SRT to NFT on the platform, this will bring about NFT collection in a new way. NFTs created on the Solidray Nft marketplace will have hidden gems in them, thus as the price of the coin increases, the NFT floor price will increase too.**

Solidray Launchpad

Due to the nature of the crypto markets, it's difficult to know where to find legitimate DeFi projects with good utilities to invest in. Our launchpad will serve as a platform where investors can find the newest and most promising DeFi projects. Our team of experts will carefully select and vet DeFi projects, putting them through stringent vetting processes before we promote them. This process will protect our investors with a greater sense of security and a better chance to succeed.

Users who stake can participate in our monthly initial DEX offering (IDO), and those who hold over \$5000 worth of Solidray Tokens (SRT) will have a guaranteed spot, while others will be selected randomly via draws

DeFi Wallet

Our DeFi Wallet aims to create a new financial ecosystem that unifies the current DeFi landscape. The project will provide an easy-to-use platform by leveraging multi-asset crypto financing capabilities on different blockchains. Our compatible Multi-Chain decentralized Wallet + NFT Storage will allow investors to track cross-chain investments all in one platform.

Decentralized Finance

ROADMAP

Q₁ 2023

- Global Press Release
- PR Campaigns
- Paid Media Banner Ads Campaign
- Celebrity/Brand Ambassadors Partnerships
- Solidpay Payment Gateway Development
- First CEX Listing

Q₄ 2022

- Brand Identity and Website Release
- Security Audit for Solidray Token
- SRT Public Sales
- Official Launch of Solidray
- Listing on Pancakeswap, CMC and Coingecko
- Strategic Partnerships
- Centralized Trading Solution (Coinsher Exchange) goes Live

Q₃ 2023

- DeFi Wallet Development
- Coinsher Philippines Launch
- DeFi Wallet Beta Launch in App/Play Store
- Global Solidray Foundation
- SolidRay Blockchain Network Development
- Continuous Marketing
- More Blockchain Solutions Development

Q₂ 2023

- NFT MarketPlace Development
- More Listing on Exchanges
- NFT Giveaway for Community
- PR Campaign
- Grand Marketing
- Teams will go to the World's Largest Crypto Expo to Showcase Solidray
